Getting Started with Zinio for Kindle Fire/HD/HDX

Using Zinio

You will need to create an account for the JGRLS magazine collection and the main Zinio website. You must use the same email address for both accounts (I also suggest that you use the same password). It is recommended that you create your accounts via the website on your computer prior to installing the Zinio app on your tablet or smartphone.

Select an E-magazine from the JGRLS Zinio Page

Using your computer or your Kindle web browser, go to www.jgrls.org and click on the Zinio E-Magazine link.

1. To find magazines, you can search by title, use the drop down category feature (All Genres) on the right, or browse the library's available titles one page at a time.
2. When you have found a magazine you want to read, click on the plus sign.

Create a JGRLS Magazine Collection Account

1. If you are using Zinio for the first time, a **Log In** pop up window will appear. Click on the **Create New Account** link.
2. Type in your library card number and click **Next**.
3. Enter your name, email address and password, and click **Create Account**. Note: If you already have an existing Zinio account, use the same email address.
4. Check your email. You will get a message that your registration has been successful. The message will be sent within a couple of minutes. If you do not see an email in your inbox, check your junk mail folder. Click the **Click Here** link in the email to activate your account.
5. The account will activate, and you will be taken back to the JGRLS Zinio Website.

Tips

- To read issues of magazines you have already checked out, go straight to your Zinio App. To add a new magazine title, go to www.rbdigital.com/jacksongeorgems, log in, and select magazines.
- On your Kindle, you will always be signed in to the account you created when downloading the Zinio app. If you want to change the account in your Kindle, you will have to uninstall the Zinio app and reinstall it using the new account info.
